SOUTH SWANSEA DEAL PENDING

No Longer a Doubt That Guggenneims Are After It.

OPTION IS FOR OVER \$1 SHARE

OFFICIAL OF THE COMPANY

T WAS learned yesterday on most placed at the disposal of the Guggenheim Exploration company, as intimated in The Herald on Saturday last, and that the option had about twenty

An official of the company was last evening asked to verify the report, and while he acknowledged that there was some foundation for it, he said that matters were not in such shape that the report could be called correct—negotiations had not reached a point to warrant it.

warrant it.

That the deal is really pending, however, there is scarcely a doubt, and that it will be consummated, possibly by the 15th of May, seems reasonably certain, as the American Smelting & Renning company has already handled several hundreds of tons of the mine's second-grade iron ores and knows to a nicety with what they will best combine when its new plant is blown in. Aside from that, the recent opening of splendid high-grade ore bodies on the lower levels has demonstrated that the ores go down and increase in volume and richness, making the proposition a

ores go down and herease in volume and richness, making the proposition a most tempting one.

At \$1.50 a share, the purchase price would be on a basis of \$450,000 for the mine, the company being capitalized for \$00,000 shares.

THE SAVANIC IS GREAT.

Its Shipments of High-grade and Big Reserves of Smelting Ore.

Colonel H. L. Pickett who, with M. M. Miller of this city, owns the Savanic copper mine, just over the Utah line in Mohave county, Arizona, returned from a modifies trip to that property Monday. Discussing conditions and plans for the future yesterday, Colonel Pickett said the less colonel of the core of Pickett said the last eight cars of ore shipped from the mine to this market averaged not less than 41.5 per cent copper, thus making it one of the rich-est copper ore producers in this sec-tion—in the same class with the Grand Gulch and O. K. mines, the former a near neighbor and the latter of Beaver

dump that will easily average 15 per cent copper and as soon as the Oregon Short Line reaches the California crossing of the Muddy river, a smelter will be erected to treat all the ore from the mine, first and second-

Experts who have examined the mine Experts who have examined the mis and its ores declare it to be a selfluxing proposition, identical, almos with the Dixle, and as there is a abundance of water for all purpossomething like eight miles from the mine, its treatment will be the eastward of the property is down 200 feet an large to the property is down 200 feet and large the property is down 300 feet and 300 f evels have been run long distances antervals of fifty feet, through an obody that in places is twenty fe hick, and the vein will average fro

line, where the surveyed routes of bot the Oregon Short Line and San Pedi roads is expected to cross. This cross Callentes, the present terminus of the Short Line. Between these two point about fifteen miles of grading has bee done and the people in that section the colonel says, are very anxious see the road go through. Every di they are expecting to see grading a tracklaying resumed and completed least to the crossing before the ye

The gap between Callientes and Dag get station on the Santa Fe is on about 300 miles and the span covered, direct line to Los Angeles would it

CONCENTRATION OF ORES.

Prof. Callaw Completes Experimen and Turns Testing Plant Over.

completed his tests and turned the mill over to A. J. Bettles of the Newhouse staff, who went down Sunday to make test runs as a verification and check upon Professor Callow's demonstra-

The latter stated yesterday that with The latter stated yesterday that with a plant consisting of two sets of rolls, three jigs, a Wilfley table and Frue vanner, he was able to hundle thirty tons a day, and with another. Wilfley the amount could be greatly increased. He effected a remarkably close saving and says that by the introduction of apparatus of his own he has demonstrated that a heavy tonnage of the Cactus ores can be treated with much less water than is ordinarily found neg:ssary in such a plant.

Plans for a mill of huge capacity—

Plans for a mill of huge capacity— probably 1,000 tons daily—will be the next work undertaken by Professor Callow for Mr. Newhouse.

CALLING ITS BONDS IN.

United States Mining Company Ready to Redeem Issue of March 1, 1900.

(Special to The Herald, Boston, April 29 .- The United States Mining company gives notice that all the outstanding 7 per cent first mort-gage bonds of the company, dated March 1, 1990, have been called for payment at 195 and accrued interest.

Sept. 1, 1903, is the time fixed for pays. Int, and bondholders are request-ed to present their bonds at the office of the American Loan & Trust com-pany, Boston, on or before that date for payment. On and after Sept. 30, 1903, the bonds cease to bear interest.

TO MOVE DIXIE SMELTER.

Will be Reconstructed on Clara Creek.

Ten Miles From Mine. Manager Grant Snyder of the Ufah & Eastern company's Dixie property, below St. George, came up from the mine yesterday on a short business trip. He says the company has just located a townsite on Clara creek, ten miles north of the mine, and the smelter will shortly be moved to that point and enlarged.

point and enlarged.

The new hoist of the ruine is working " litlessly, and with 500 feet of the roll he sees nothing to sinking goes on levels will

Manager Snyder says the mine is opening up splendidly and that its career as a producer has hardly com-

BOSS TWEED WILL CONTINUE. Will Soon Begin Sinking Shaft and a

Winze in Ore, as Well. Willard F. Snyder, president of the Western Exploration company, which practically owns the Boss Tweed, says it is not the purpose of the company to close the mine down. Rather, the force will shortly be increased.

"Some changes are to be made in the plan of operating," said he "end than

"Some changes are to be made in the plan of operating." said he, "and they will necessitate the employment of more men than we have been working.

A more powerful hoist is to be installed and the shaft continued on down. The present hoist will be moved to a point in the drift on the 140-foot level from the shaft where a good chute of ore was exposed several months ago, and a winze will be sunk upon it. The Boss Tweed is not going to cease work by any means."

Amalga ated's Case Heard. and that the option had about twenty days yet to run. The price was not definitely known, but the statement tion of the Amalgamated Copper comwas youched for that it was somewhere between \$1 and \$1.50 a share,

An official of the company was last evening asked to verify the report, and while he acknowledged that there was the court vacate the injunction issued by Judge Clancy restraining the Amalgamated any accruing dividends. The injunction was issued by the Butte judge Nov. 19 last. The Amalgamated has sought to have it vacated in the lower court but without success, and appeal has accordingly been made to

Ore and Bullion.

Ore and bullion settlements in this city esterday amounted to \$50,900, as follows: T. R. Jones & Co., ores, \$30,000; bullion, \$5,000. McCornick & Co., ores, \$13,400; gold bars, \$2,500.

MINING STOCK EXCHANGE.

Day Opened With Prices Strong and Closed to a Weakening.

During yesterday's trading on 'change 134,110 shares sold for \$54,149.75. The market opened on prices fully as strong or stronger than they closed the day be-fore, but in most instances there was a fore, but in most instances there was a slacking off at the close. Daly-West came in for a turn at its periodical drop, and at the finish twenty-five shares were released at \$43.52\footnote{1.5}, against an opening at \$45.05.

Alax rose from \$45\footnote{1.5}, to \$46\$ cents and closed at \$41\footnote{1.5}, cents, while Carisa, after doing quite a business at \$6\$ to \$4\$ cents, gradually receded and closed on a sale at \$86\$, cents.

NO RERATING OF FORESTERS.

Officers of the Supreme Court Deny a Rumor.

Rumor.

Los Angeles, April 29.—The opening session of the triennial meeting of the supreme court of the Independent Order of Foresters was held today. The first important business that came before the supreme court was the presentation of the triennial report of Dr. Oronhyatekha, supreme chief ranger in which he advocated the correction of some minor abuses and the institution of certain reforms in administration. It has been reported that the supreme court contemplated a rerating of the old members at the present session, but the officials deny the stafement. Supreme Secretary McGillivery said in regard to this:

"The supreme court has not, to the best of my knowledge, considered or even thought of taking any action on the rates established three and a half years ago, which have proved satisfactory to all concerned, and the additional rate of about 35 per cent levied on new members has in no way interfered with the progress of our society.

In his report Dr. Oronhyatekha called attention to the fact that up to Jan. 1, 1902, the supreme court distributed in benefits to its members and their beneficiaries more than 311,250,000. Jan. 1, 1707, the order had 191,677 members, a net gain, over all losses, of 60,392 members caring the four years ending with Dec. 31, 1901. Accumulated tunds had increased Dec. 31, 1901, to 85,142,086.29. Since the last session of the supreme court, Dec. 31, 1901, and and companion courts.

BUY AND SELL AT HIGH PRICES

Wide Movement of Standard Securities Feature of the Day.

THE CROP NEWS FAVORABLE

AGRICULTURAL INTELLIGENCE HELPS WESTERN LINES.

New York, April 29.—The movement of prices was confined and irregular all of today and there was evidence of a diminishing speculative interest. The wide movements in high priced stocks continued a feature but the influence of the advances was impaired by some equally notable relapses in stocks where attempts ere made to take profits. A case in point was that of New York. New Haven & Hartford, which fell violently 9 points on an attempt to market a small amount of stocks because of the emphatic disclaimers from both Pennsylvania and New York Central authorities of the rumors of purchase of control. There was a late rally of several points in the stock. New York Central and Pennsylvania also quieted down from their recent activity and strength. In fact there was very little show of strength throughout the eastern railroad field. The session of the joint committee of operators and miners to discuss disputed points in the anthracite field was a repressive influence on all coalers. The decrease reported in Reading surplus earnings for March was an unfavorable influence. The very heavy decrease in net earnings of the Southern Re/dway for March was certainly not a s/imulating influence, although it was accounted for largely by the noiable increase in operating expenses. The western railroads, on the other hand, were benefited by the crop news and by the weekly crop bulletin of the weather report, which was considered very favorable, not only regarding the condition of winter wheat, but as to the progress made in seedin corn and spring wheat. The grain carrying railroads also were helped by the special strength of the northwestern stocks which rose loy and 5½ respectively. Rock Island gained an extreme 5½ but lost over 2 points of it. The strength of the Wabash stocks and of the Wheeling & Lake Erle stocks was evidently due to the apparent certainty that the bid of the syndicate representing the Gould interest for the Western Maryland will be accepted. The industrials were marked by quite as great irregularity as the United States bonds were all unchanged on the last call.

New York. April 29.—The Commercial Advertiser's London financial cablegram says: Stocks were slack and dull today. The market looked tired in waiting for peace in South Africa and the holiday on Thursday was not without influence. American shares were quiet, hardened slightly early and advanced more rapidly on New York's support of St. Paul, Atchison and Union Pacific accompanied by good crop news. Grand trunks were very strong on the excellent revenue statement. Canadian Pacific hung back on its statement, which was regarded as disappointing.

Silver is flat at 232d per ounce on American pressure to sell, with no eastern support.

England is beginning to understand that occan trust is not an acquisition of British shipping, but only a pool with exchange of share interests.

Boston, April 29.-Very few buyers hav troubled the wool market here this week, and the business is dormant. The strike in the wool mills in this section does not tend to improve the market, and although there is a tendency to weakness to be seen here and there, prices are practically unchanged. Territory wools, choice stables are quoted on the soured basis as follows:

Fine. 50@52; fine medium, 47@48, and medium, 45. The ordinary grade of territory is quoted: Fine. 48@50; fine medium, 40.

Australian wools are featureless. troubled the wool market here this week

BEER "on Lager."

Beer stored and maturing till mellowed and ripened

into wholesomeness is "on lager." All Anheuser-Busch beers are thus "lagered" until perfect for use.
